NAPTOSA MEMBER GUIDE | WORKSHOP MODULE

Your workshop journey, simplified.

A clear path from finding the right workshop to keeping your receipt and certificate close at hand.

01 | THE REASON

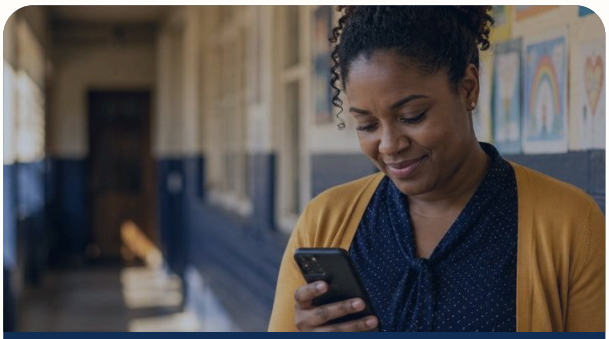

Your day is already full. Workshop admin should feel lighter.

Members should be able to focus on choosing the right development opportunity, not on piecing together the process.

1 **Scattered information**
Finding the right date, topic and venue can mean searching through several messages or documents.

2 **Too many handoffs**
Booking, payment and confirmation can feel like separate tasks with no single view of progress.

3 **Records are hard to retrieve**
Receipts and certificates are useful long after the workshop, so they need a dependable home.

One member journey

The new Workshop Module brings discovery, booking, payment guidance and records into a connected experience.

Built around member convenience

From scattered admin to one clear path.

Each stage shows what happens next, what you need to do, and where your records will be available.
